PURPLE = Limited Qty

Scientific Name	Common Name	Size	Description	Now
Perennials				
achillea millefolium	yarrow	Qt	Cream/white blooms, summer, 2-3', full sun, dry to med soil	ready
actaea pachypoda	doll's eyes	Qt	white blooms in spring turning to white berries in summer, 2'-3', full to part shade, avg soil, berries poisonous if ingested	ready
actaea racemosa	black cohosh/fairy candles	1, 2 Qt	white blooms on large spikes, Jun-Jul, 4'-6', part to full shade, med to moist soil	dormant
Actinomeris (verbesina) alternifolia	wingstem	Qt	bright yellow, daisy-like blooms, Aug-Oct, 3-8', part-shade to shade, med to moist soil, high value to pollinators	ready
agastache foeniculum	anise hyssop	Gal	purple blooms, late summer, 2'-4', full sun, avg to dry soil, attract pollinators/butterflies/hummingbirds	ready
agastache scrophulariaefolia	Purple giant hyssop	Qt	Very pale purple blooms, up to 6', full to part sun, dry to moist soil, attracts numerous pollinators/butterflies, birds feed on seeds	sold out
allium cernuum	Nodding onion	Qt	soft pink/lilac blooms, late spring, 12-18", sun to part shade, med to dry soils, deer resistant, attracts pollinators, host plant for hairstreak butterfly	sold out
allium tricoccum	ramps	Qt	white blooms, summer, 6-12", part to full shade, medium rich soils, edible greens	dormant
amorpha canescens	leadplant	Gal	blue/purple flowers w/ orange anthers, Jun-July, 2'-3', sun, dry to medium soil, substitute for butterfly bush	sold out
amsonia hubrichtii	threadleaf bluestar	qt	blue blooms, late spring, 3', full to part sun, dry to moist soil, drought tolerant, bright gold to orange foliage in fall	ready
amsonia illustris	Shining bluestar	2 Qt	blue blooms, late spring, 3', sun to part shade, deer/rabbit resistant, nice fall color	sold out
amsonia tabernaemontana	bluestar	Qt	blue blooms, May, 2'-3', sun to part shade, avg soil, drought tolerant, willowy foliage turns yellow in fall, attracts butterflies	plugs
amsonia spp.	bluestar varieties	Gal	Fontana	a few avail
anaphalis margaritacea	pearly everlasting	Qt	white flowers with yellow centers, late summer, 1-3', sun to part shade, med to dry soils, tolerant of poor soils, host plant for painted lady butterflies	possible
anemone virginiana	Tall thimbleweed	Qt	white/green flowers then prominent seed heads, mid-late spring, 1'-2', sun to part shade, dry to medium soil	sold out
anemonella thalictroides	Rue anemone	Qt	small white flowers, early spring, part shade	dormant

Antennaria plantaginifolia	pussytoes	Qt	fuzzy white clusters of blooms, Apr-Jun, 6”-12”, dry to med soil, full sun best, soft gray foliage spreads to form a nice ground cover	possible
aquilegia canadensis	wild columbine	Qt	red blooms with yellow centers, spring, 1'-3', partial shade best, moist soil – attract hummingbirds	sold out
aquilegia canadensis	wild columbine ‘Corbett’	Qt	butter yellow flowers Apr-May, 12”-18”, sun to part shade, avg/moist soil, attracts hummingbirds	sold out
aquilegia canadensis	wild columbine 'little lanterns'	Qt	red and yellow, 10”-12”, sun to part shade, avg/moist soil, attracts hummingbirds, dwarf selection of wild	sold out
arisaema triphylum	Jack-in-the-pulpit	Qt	green/purple 'bloom', Apr-May, 1-2', med to moist soil, part to full shade	dormant
aruncus dioicus	goat's beard	Gal	white/cream flowers, Jun-July, 4'-5', shade/part shade, moist but well-drained soil, Attracts butterflies, larval host to Dusky Azure butterfly	sold out
asaraum arifolium	little brown jug/evergreen ginger	Qt	small brown jug-shaped flowers, spring, evergreen foliage, moist soils	sold out
asarum canadense	wild ginger	Qt	purple-brown blooms, mid spring, groundcover, part to full shade, med to wet soil	plugs
asclepias exaltata	poke milkweed	Qt	white blooms, summer, 3-5', shade/part shade, med soil, host plant for monarch butterfly, a milkweed for shade!	sold out
asclepias incarnata	swamp/red milkweed	Qt	pink blooms, June/July, 3'-5', full/part sun, average to moist soil, attracts numerous pollinators, host plant for monarchs	Afew quarts/plugs
asclepias incarnata	swamp milkweed 'ice ballet'	Qt	white flowers June/July, moist soil, tolerates clay, attracts pollinators/monarchs	sold out
asclepias purpureascens	Purple milkweed	plugs	rose-pink to purple flowers, June/July, 2-3', sun to part shade, med to moist but well-drained soils	plugs
asclepias speciosa	showy milkweed	Qt	pink/purple flowers, May-Sept, 2-4', full sun, monarch host plant	sold out
asclepias syriaca	common milkweed	gal	pink clusters of fragrant flowers, June-July, 2'-4', full sun, avg to dry soils, host plant for monarch	sold out
asclepias tuberosa	butterfly milkweed	Qt	Orange blooms June-July, full sun, average to dry soils, drought tolerant, attracts many butterflies/pollinators, host plant for monarchs	plugs
asclepias tuberosa	butterfly milkweed 'gay butterflies'	Qt	orange/red/yellow blooms June-July, full sun, average to dry soils, drought tolerant, attracts many butterflies/pollinators, host plant for monarchs	sold out
asclepias tuberosa	butterfly milkweed 'hello yellow'	Qt	yellow blooms June-July, full sun, average to dry soils, drought tolerant, attracts many butterflies/pollinators, host plant for monarchs	sold out

asclepias verticillata	whorled milkweed	Qt	white or greenish-white blooms, Jul-Sept, 2', full sun to part shade, avg to dry soils, attracts numerous pollinators, host plant for monarch	plugs
aster azureus	sky blue aster	Qt	light blue-violet blooms, fall, 2-3', sun, dry to med soil, tolerates rocky soils	sold out
aster 'Bridal Veil'	Bridal veil aster	Qt	Numerous while blooms on arching/spreading stems, fall, up to 2', sun to part sun, tolerant of dry slopes, salt tolerant, nice for cascading over walls/down a bank	sold out
aster cordifolius	blue wood aster	Qt	clouds of blue-violet blooms, early fall, 2'-3', full shade to part sun, avg soil, attracts butterflies	ready
aster cordifolius 'Avondale'	Avondale' blue wood aster	Gal	light blue blooms, early fall, 2-3', full to part shade, avg soil, attracts butterflies	sold out
aster divaricatus	white wood aster	Gal	white blooms, Aug-Sept, 1-2.5', part to full shade, med to dry soil, attracts buttterflies	a few plugs
aster divaricatus	white wood aster 'Eastern Star'	Gal	white blooms on mahogony stems, fall, 18”-24”, shade/part shade, moist to dry soils, attracts butterflies	ready soon
aster drummondii	Drummond's aster	Qt	pale purple to white blooms, late summer/fall, 3', sun to shade, moist to dry soils	ready
aster ericoides	Heath aster 'Snow Flurry'	Qt	white blooms, Sept-Oct, 6”-8”, mat-forming groundcover, full sun, drought tolerant	sold out
aster firmum	Shining aster	Qt	blue to white blooms, late summer to fall, 3-8', full sun to part shade, wet to medium soil	ready soon
aster laevis	smooth aster	Gal	violet blooms, late summer, 2-3', sun, avg/dry soil, upright form and generally clean foliage	ready
aster laevis	Bluebird' smooth aster	Qt	violet blooms, late summer/fall, 3-4’, avg/dry soil, attractive to butterflies/pollinators, deer resistant, generally pest-free foliage, earned #1 ranking in Mt Cuba Center aster trial	sold out
aster lateriflorus	Calico aster	QT	pale pink to white daisy-like blooms, dark stems, late summer-fall, 3-4’, sun to part shade, dry to moist soil, attractive to pollinators/butterflies, deer resistant	ready
aster macrophylla	big leaf aster	Qt	violet blooms, late summer – fall, 1-3’, full to part shade, dry to moist soil, attracts butterflies/pollinators	sold out
aster macrophylla	Twilight' big leaf aster	Gal	large lavender-blue blooms on reddish stems, fall, 2-3', sun to part shade, dry to moist soils	sold out
aster novae-angliae	New England aster	Qt	Pink-purple blooms, fall, 3-6', full sun, med soils	plugs
aster novae-angliae	Aster 'Alma Poetschke'	Qt	bright pink to magenta blooms, 3-6', full sun, avg to moist soil	ready
aster novae-angliae	Aster 'Harrington's Pink'	Qt	pink blooms, fall, 3-6', full sun, avg soil, drought tolerant, deer resistant, attracts butterflies	ready
aster novae-angliae	Aster 'Violetta'	Gal	deep violet-purple blooms, fall, 4-5', full sun, avg soil, deer/rabbit resistant, attracts butterflies	sold out

aster novi-belgii	New york aster	Qt	pink/purple/white blooms, Aug-Sept, 3'-5', full sun, avg to moist soil, attracts butterflies/pollinators, nice with fall mums	sold out
aster oblongifolius	Aromatic aster 'Raydon's favorite'	Qt/Gal	Blue-purple blooms, Sept-Oct, 2'-3', sun to part shade, tolerant of dry/poor soils	ready
aster oblongifolius	Aromatic aster 'October Skies'	Gal	light blue flowers, fall, 1.5-2', sun to part shade, tolerant of dry/poor soils	sold out
aster puniceus	Purple-stemmed/swamp aster	2 Qt	purple daisy-like blooms on reddish-purple stems, late Aug – Oct, 3'-6', moist soil, full sun	sold out
aster shortii	Short's aster	Qt	light purple/violet blooms, late summer/fall, 3', part shade to shade, med to dry soil	ready
aster spectabilis	showy aster	Qt	violet blooms, later summer-fall, 1-2', part shade to full sun, dry to moist	sold out
aster umbellatus	Flat-topped white aster	Qt	clusters of white, daisy-like blooms, late Aug – Sept, 2'-5', moist soil, full sun to part shade, attractive to bees/butterflies	plugs
aster 'wood's light blue'	wood's light blue aster	Qt	clear pale violet-blue flowers, fall, 12", med to moist soil, sun to part shade	ready
aster 'wood's pink'	wood's pink' aster	Gal	clear pink flowers with gold centers, fall, 12", med to moist soil, sun to part shade	ready
aster 'wood's purple'	wood's purple aster	Gal	clear purple flowers, fall, 12", med to moist soil, sun to part shade	ready
aster 'Little Carlow'	Little Carlow blue wood aster	Qt	blue/purple blooms with yellow centers, Sept-Oct, 1.5-2', full sun, medium soil, a cross of a. cordifolius and a. novi-belgii	sold out
astilbe biternata	Appalachian false goat's beard	2 Qt	creamy white flowers, late spring/early summer, 4-6', full to part shade, avg to moist soil	sold out
baptisia australis	Blue false indigo	Qt	blue blooms, late spring/early summer followed by interesting seed pods, 3-4', sun to part shade, med to dry soil, attractive to butterflies, drought tolerant, rabbit resistant	ready (3.25")
baptisia australis var.	false indigo varieities	Gal	select colors avail	sold out
baptisia leucantha alba	white false indigo	Qt	white blooms, bluish stems,Jun-July, 3'-5', med to moist soil, full sun	ready
baptisia tinctoria	yellow wild indigo	Gal	yelllow blooms, blue-green foliage, summer, sun/light shade, 3', deer resistant, drought tolerant	sold out
baptisia sphaerocarpa	large yellow wild indigo/bush pea	Gal	yellow blooms, blue-green foliage, late spring, sun, 3', drought tolerant	sold out
blephilia ciliata	downy wood mint/horsemint	qt	tiered clusters of lavender/pink blooms, June-Aug, 1-2', sun to part shade, med to dry soils, very attractive to a wide variety of pollinators (listed in '100 Plants to Feed the Bees' from the Xerces Society), drought tolerant	plugs soon
blephilia hirsuta	hairy wood mint	Qt	tiered clusters of white blooms, late summer/fall, 3', part to full shade, med to moist soils, good pollinator plant	a few 2.5" left

boltonia asteroides	thousand flowered/starry aster	Qt	white blooms, late summer-fall, 3-5', sun to part shade, moist to wet soils	a few left
cacalia atriplicifolia	Pale Indian plantain	Qt	White blooms, late summer/fall, 3 - 7', full to part sun, med to dry soils, purplish stems, bottom of leaves silvery	ready
callirhoe involucrata	wine cups/poppy mallow	Qt	magenta flowers, summer, 6-8", full sun to part shade, dry to med soils, tolerant of poor/rocky soils and drought, makes a trailing groundcover, host plant for gray hairstreak butterfly and checkered skipper	plugs
campanula rotundifola	harebell	Qt	blue blooms, June-Sept, 12"-15", sun to part shade, avg to moist soil, tolerates clay	sold out
cassia (senna) hebecarpa	wild senna	Qt	yellow blooms, July-Aug, 4'-6', full sun, med to moist soil, tolerates clay soil, seed pods attract upland game birds (such as turkey)	sold out
caulophyllum thalictroides	blue cohosh	Qt	green/yellow blooms in spring turning to blue berries, blue/green foliage, 1'-2', part to full shade, medium soil	dormant
chelone glabra	white turtlehead	Qt	white blooms, late summer/fall, 2'-4', full to part sun, prefers moist soil, good for rain gardens, host plant for Baltimore checkerspot butterfly	a few Gal
chelone lyonii	pink turtlehead	Qt	pink blooms, mid-late summer, 2'-4', sun to part shade, med to moist soil	sold out
chelone lyonii 'Hot Lips'	Hot Lips' pink turtlehead	Qt	pink flowers, late summer, 2-3', sun to part shade, med to moist soils, dark green foliage/dark stems	sold out
chelone lyonii 'Tiny Tortuga'	pink turtlehead 'Tiny Tortuga'	Qt	pink blooms, late summer, 12-15", sun to part shade, moist soil	sold out
chimaphylla maculata	spotted wintergreen	Qt	white to pink blooms, late spring/early summer, 6-10", part to full shade, dry to med soil, tolerates rocky/sandy soils, evergreen foliage	sold out
chrysogonum virginianum	green and gold	Qt	yellow blooms on dark green foliage, spring, 6" (ground cover), shade/part shade, moist/average soil	sold out
chrysogonum virginianum	Pierre' green and gold	Gal	yellow blooms, spring, 6-8" (ground cover), shade/part shade, moist/avg soil	ready
coreopsis lanceolata	Lanceleaf coreopsis	Qt	golden yellow blooms, late spring-summer, full sun, dry to moist soils, drought resistant, deer resistant, short-lived perennial that easily reseeds, important nectar/pollen source, birds eat seeds	sold out
coreopsis 'Gilded Lace'	Gilded Lace' tickseed	Qt	golden-yellow blooms for several weeks, summer – fall, fine textured foliage, 4-5', sun, dry to moist, attractive to pollinators, good resistance to disease, performed well in Mt Cuba plant trials	sold out
coreopsis 'Red Satin'	Red Satin' tickseed	Qt	red blooms, fine foliage, summer, 15-18", sun, dry to med soi	sold out

coreopsis rosea	tickseed 'American dream	Qt	medium pink flowers June-Aug, moist but well-drained soil, attracts butterflies	sold out
coreopsis 'Mercury Rising'	Mercury Rising' tickseed	Qt	velvety dark red flowers later developing white streaks, mid-summer to fall, 12-18", sun	sold out
coreopsis 'Moonbeam'	Moonbeam' tickseed	Qt	pale yellow flowers and fine green foliage, summer, 15", sun, med soil	ready
cornus canadensis	Bunchberry	Gal	white flowers, 3-9", late spring, part shade, med soil, spreading groundcover	sold out
delphinium tricorne	dwarf larkspur	Qt	Blue to purple flowers, spring, 6-24", rich soils	dormant
desmodium canadense	showy tick trefoil	2 Qt	Pink blooms, July/Aug, 3-5', sun to part shade, moist to dry soils, fixes soil nitrogen, attractive to pollinators/butterflies/hummingbirds	sold out
dicentra cucullaria	Dutchman's breeches	Qt	white-pink flowers, spring, 6-12", part to full shade, med soil	dormant
dicentra eximia	wild bleeding heart	Qt	pale pink heart-shaped blooms on lacy blue/green foliage, spring-summer, 1'-2', part sun to shade, med to moist soil, morning sun/afternoon shade best	sold out
dodecatheon meadia	Shooting star	4”/Qt	white/pink/lavender blooms, spring, 1', part to full shade, med soil	dormant
echinacea pallida	Upright prairie/pale purple coneflower	Gal	pale pink blooms appear drooping, June-July, 2'-3', full sun, drought tolerant, attracts pollinators/butterflies	ready
echinacea pallida 'Hula Dancer'	Hula Dancer' pale purple coneflower	Qt	blush to almost white blooms with drooping petals and reddish cone, 2-3’, sun to part shade, dry to med soils, a favorite in Piet Oudolf designs	sold out
echinacea paradoxa	Yellow coneflower	Qt	bright pure yellow blooms with petals drooping from brown cone, early summer, 2'-3', full to part sun, average to dry soils, finches love the seed heads	sold out
echinacea purpurea	purple coneflower	Qt	purple to rose pink blooms with orange cone center, July-Aug, 2'-3', full to part sun, average to dry soils, attracts pollinators, birds, butterflies	plugs soon
echinacea pur. 'Magnus'	Magnus' coneflower	Qt	purple to rose pink blooms, July-Aug, 3-4', full to part sun, avg to dry soils, good pollinator score in Mt Cuba trials	ready soon
echinacea 'Cheyenne Spirit'	Cheyenne Spirit' coneflower	Qt	mix of colors (orange/pink/purple/white/yellow), summer, 18-24", sun, avg to dry soils, attractive to butterflies/pollinators, nice cut flower	sold out
echinacea 'Fatal Attraction'	Fatal Attraction' coneflower	Gal	magenta-pink blooms, late summer, 2', sun to part sun, med well drained soil, darker stems than the species, petals curve slightly upwards	sold out
echinacea 'Green Twister'	'Green Twister' coneflower	Qt	pink/purple/red blooms with lime green/yellow tips, mid-summer to fall, 2'-3', full to part sun, avg to dry soils, a selection of echinacea purp. 'magnus'	sold out

echinacea 'Green Jewel'	Green Jewel' coneflower	Gal	light green blooms, summer, 2', full to part sun, avg to dry soils	sold out
echinacea 'Julia'	Julia' coneflower	Gal	rose pink to orange blooms fading to soft colors, summer, 2', full to part sun, avg to dry soils, top performer in Mt Cuba trials	sold out
echinacea 'mellow yellows'	Mellow Yellows' coneflower	Qt	light yellow to golden blooms, mid-summer to fall, 2-3', full to part sun, avg to dry soils	sold out

heliopsis hel.	Smooth oxeye 'Summer Sun'	Qt	yellow semi-double blooms, July-Sept, 3'-4', full sun, moist well drained soil, but drought tolerant when established	sold out
heliopsis hel.	Smooth oxeye 'Summer Nights'	Gal	yellow blooms with reddish centers and red stems, late summer, 3-4', full sun, med to moist soils	sold out
heliopsis hel.	Smooth oxeye 'Bleeding Hearts'	Qt	ready blooms fading to orange, dark foliage, 3-4', sun, avg to moist soil	plugs
heliopsis hel.	Smooth oxeye 'Burning Hearts'	Qt	yellow flowers with orange centers and dark purple foliage, summer, 3-4', sun to part shade, moist to avg soil, drought tolerant once established, attractive to butterflies and bees	sold out
heuchera americana	Coral bell	Qt	pinkish-green flowers, late spring, 12", part to full shade, well-drained soils, foliage slightly ruffled and veined, turning red in fall, hummingbirds	plugs
heuchera x	heuchera cultivars	Qt/Gal	various	ready
heuchera villosa	Hairy coral bell/alumroot	Qt	Creamy-white flower spikes, late summer-frost, 1-2', shade to sun, moist to dry soils	plugs
heuchera 'Autumn Bride'	Coral bell 'Autumn Bride'	Gal	Creamy-white flower spikes, late summer-frost, 2', shade/part shade, med/well-drained soil	ready soon
hibiscus laevis	rose mallow	Gal	hardy native hibiscus, light pink flowers with dark throat, late summer, 3-6', moist, sunny sites, good for rain garden/wet areas	sold out
hibiscus varieties	hardy hibiscus	1 gal	various	dormant
iris cristata	dwarf crested iris	Qt	lavender-blue blooms, late spring, 6", part to full shade, med to moist soil	a few left
iris cris. 'Alba'	Dwarf crested iris 'Alba'	Qt	White flowers with yellow crest, spring, 6-8", sun to shade, med to moist soils, spreads to form groundcover	sold out
iris cris. 'Tennessee White'	Dwarf crested iris 'Tenn White'	Qt	White flowers with yellow crest, spring, 6-8", sun to shade, med to moist soils, spreads to form groundcover	sold out

jeffersonia diphylla	Twinleaf	Qt	white flowers in spring, interesting foliage, up to 1.5', shade to part shade, med to moist soils	dormant
lespedeza virginica	slender bush clover	Qt	pink flowers, late summer, 2', sun to part shade, med to dry soils, attracts pollinators, birds eat seeds	sold out
liatris ligulastylis	Meadow blazingstar	Gal	Pink to purple blooms, mid to late summer, 3-5', full sun, med to moist soils, a monarch magnet (and many other butterflies)	ready
liatris microcephela	dwarf blazing star	Qt	Purple blooms, Aug-Sept, 18-24", full to part sun, avg to dry soil, attractive to butterflies	sold out
lilatris scariosa	Savanna blazing star	Qt	purple blooms, late summer-fall, 3-5', full sun to part shade, moist to dry soil	sold out
liatris spicata	spike gayfeather	Qt	Pinkish-purple spikes, July-Aug, 3'-5', avg to moist soil, attracts wide variety of butterflies/pollinators	ready
liatris spicata 'Floristan white'	Floristan white' gayfeather	Qt	White spikes, summer, 2-3', sun, avg to moist soils, attractives butterflies/pollinators, nice cut flower	sold out
liatris sp. 'Kobold'	Kobold' gayfeather	Qt	Purple spikes, summer, 1-2', avg to moist soils, more compact than species	sold out
lilium superbum	Turk's cap lily	Qt	orange blooms with maroon spots, mid summer, 4-7', sun, med to wet soils, part shade, attracts hummingbirds	dormant
lobelia cardinalis	cardinal flower	Qt	Red blooms, July-Sept, 2'-4', sun to shade, prefers moist soil, attracts hummingbirds	plugs
lobelia cardinalis	cardinal flower 'Black Truffle'	Gal	red blooms and burgundy foliage, July-Sept, 3'-4', sun to part shade, prefers moist soil, attracts hummingbirds	sold out
lobelia siphilitica	Great Blue Lobelia	Qt	blue-violet blues, July-Sept, 2'-3', sun to part shade, prefers moist soil – attracts butterflies and hummingbirds	plugs
lobelia spicata	Pale spiked lobelia	Qt	small pale purple/white blooms, late spring to summer, 2', medium wet to dry soils, sun to part shade, attracts small pollinators and hummingbirds	ready
lysimachia ciliata	Fringed loosestrife 'firecracker'	Qt	yellow blooms, summer, 2'-3', sun, new foliage maroon turning greener later in summer	sold out
lysimachia lanceolata purp	Lanceleaf loosestrife	Gal	yellow blooms, 1-2', sun to part shade, med to moist soils, foliage has hints of burgundy	sold out
meehania cordata	Meehan's mint	Qt	Blue-violet blooms, late spring, 6"-10", full shade to part sun, dry to moist soil, groundcover, good native substitute for ajuga	sold out
mertensia virginiana	Virginia bluebells	Qt	pink buds forming blue flowers, early spring, 8"-2', part to full shade, moist soils, good early pollinator plant, foliage dies back in summer	dormant
mitchella repens	Partridgeberry	4"	evergreen groundcover, small white flowers spring, red berries, 3", full to part shade, med soils	sold out
monarda bradburiana	Bradbury's/Eastern bee balm	Qt	pale pink blooms speckled w/ purple, late spring, 1'-2', sun to part shade, dry to avg soil, attracts pollinators/hummingbirds	plugs

monarda clinopodia	White/basil bee balm	Qt	white blooms, 2-4', summer, part shade, avg to moist soil	sold out
monarda didyma	bee balm	Qt	**the straight species**, red blooms summer, 2-4', sun to part shade, med to moist soils, attracts hummingbirds/pollinators, aromatic foliage, not browsed by mammals	ready soon
monarda didyma	Bee balm 'Marshall's delight'	Qt	Rose-pink flowers, summer, 3', sun to part shade, average to moist soils, attracts butterflies, pollinators, hummingbirds	sold out
monarda didyma	Bee balm 'Blue Stocking'	Qt	Deep violet blooms, Jun-July, 2'-3', sun to part shade, avg to moist but well-drained soil, attracts butterflies/pollinators/hummingbirds	sold out
monarda didyma	Bee balm 'Gardenview Scarlet'	Qt	Red blooms, mid to late summer, 2'-3', sun to part shade, avg to moist but well-drained soil, better resistance to mildew	sold out
monarda 'Jacob Cline'	Bee balm 'Jacob Cline'	Gal	red blooms, mid to late summer, 3-5', sun to part shade, avg to moist soils	sold out
monarda raspberry wine	Raspberry Wine' beebalm	Qt	wine red flowers, 3-4', sun to part shade, avg to moist soils, good mildew resistance	sold out
monarda didyma	Bee Balm 'Purple Rooster'	Gal	Purple blooms, June-July, 3-4', sun to part shade, moist to dry soils, attractive to wide variety of pollinators/butterflies, drought tolerant, 'Purple Rooster' reported as mildew free in Mt Cuba trials	sold out
monarda didyma	Bee balm ' White'	Qt	White blooms, July, 2'-3', sun, avg to moist but well-drained soil, attracts butterflies/pollinators/hummingbirds	sold out
monarda fistulosa	wild bergamot	Qt	Lavendar blooms, late summer, 2'-5', full to part sun, dry to moist soil, drought tolerant, aromatic foliage, attracts bees, butterflies, hummingbirds, more resistant to powdery mildew than most	plugs
monarda media	Purple bergamot	Qt	Red/purple/pink blooms (varies), July, 2-3', avg to moist soil, sun to part shade, attracts butterflies/hummingbirds/pollinators	sold out
monarda punctata	horsemint/spotted bee balm	Gal	purple spotted flowers atop stems with pink/lavender/cream bracts, 1-3', sun, moist to dry soils, attractive to pollinators/butterflies/hummingbirds, deer/rabbit resistant	a few left
napaea dioica	glade mallow	Qt	white flowers, 6-8', medium wet to medium, full sun to part shade	ready soon
oenothera fruticosa	narrowleaf evening primrose	Qt	red flower buds followed by bright yellow flowers, summer, 1-3', sun to part shade, dry to moist soil, attractive to pollinators and hummingbirds, songbirds eat seeds	plugs
oenothera fruticosa	Fireworks' evening primrose	Qt	red buds lead to yellow blooms on red stems, late spring-summer, 15-18", sun, dry to avg soil	sold out
opuntia humifusa	prickly pear cactus	Cut.	yellow blooms, spring/summer followed by pinkish red fruits, spreads along ground, sun, dry to avg well-drained soil	sold out

pachysandra procumbens	Allegheny spurge	Qt	white bottlebrush flowers, early spring, 6-12", part to full shade, med soil, gradually spreads to form a groundcover, drought tolerant once established	sold out
packera obovata	roundleaf ragwort	Qt	yellow daisy-like blooms, Apr – June, 1'-2', sun to part shade, med to wet soils, foliage semi-evergreen, tinged with burgundy at time, good ground cover	sold out
parthenium integrifolium	wild quinine	Qt	white flower clusters, 3'-5', summer-fall, full sun, dry to medium soils	plugs
paxistima canbyi	Canby's mountain lover/cliffgreen	Qt	evergreen groundcover, small green flowers, May, 6-12", sun to part shade, good for rocky slopes	sold out
pedicularis canadensis	Canadian wood betony	Qt	reddish/violet with yellow blooms, 12", Apr-May, full to part sun, med to dry soil, well drained best, attractive to bumblebees	sold out
penstemon calycosus	Calico penstemon	Qt	pale lavendar to white tubular blooms, late spring/early summer, 2'-3', part shade, avg soil, attracts wide variety of pollinators/hummingbirds, tolerant of alkaline soils	plugs
penstemon digitalis	beardtongue	Gal	white to pink blooms, late spring/early summer, 3'-4', full sun to part sun, average to dry soil, drought tolerant, attracts bees/butterflies/hummingbirds	a few plugs and gal
penstemon digitalis	beardtongue 'husker red'	Qt	pale pink/white blooms late spring/early summer, reddish-green foliage, 2-3',sun/part shade, average soil, attracts hummingbirds	ready
penstemon 'Dakota Burgundy	Dakota Burgundy' beardtongue	Qt	lavender/pink blooms and dark foliage, late spring - summer, 1', sun to part shade, avg soil, attracts hummingbirds/bumblebees	ready
penstemon 'Dark Towers'	Dark Towers' beardtongue	Qt	pale pink/white blooms late spring/early summer, very dark maroon foliage, 2-3',sun/part shade, average soil, attracts hummingbirds	ready
penstemon 'Blackbeard'	Blackbeard' beardtongue	Gal	pale pink blooms, late spring, dark foliage, 3', sun/part shade, avg soil, attracts hummingbirds/bumblebees	sold out
penstemon 'Onyx and Pearls'	Onyx and Pearls' beardtongue	Gal	pale lavender to white blooms, late spring/early summer, 3-4', sun/part shade, avg soil, dark foliage (near black when mature),	sold out
penstemon hirsutus	hairy beardtongue	Qt	pale purple flowers, May-June, 12-18”, sun to shade, moist to dry soils, attractive to bumblebees, butterflies and hummingbirds	plugs soon
penstemon hir. 'Pygmaeus'	hairy beardtongue 'Pygmaeus'	Gal	pale pink/lavender/white blooms, late spring/early summer, 6", sun to part shade, med soil, good drainage, attracts hummingbirds/bumblebees, compact size for front of border	sold out

penstemon laevigatus	Eastern smooth beardtongue	Qt	pale white/pink/purple blooms, late spring, 3', sun to part shade, dry to med-moist soils	ready
penstemon pallidus	Pale beardtongue	Qt	white blooms, late spring/summer, 1', sun to part shade, dry to med soils, tolerant of sandy/rocky/gravel soils, attracts bumblebees/hummingbirds	ready
penstemon smallii	Small's penstemon	Qt	lavendar/pink blooms, summer, 1'-2', sun/part shade, average soil, attracts hummingbirds, bees, butterflies	sold out
penstemon tubaeflorus	white wand beardtongue	Qt	white flowers, late spring/summer, 1-3', sun/part shade, avg to dry soil, attracts hummingbirds, bees	sold out
phlox carolina	phlox 'Minnie Pearl'	Qt	white blooms, early summer, 1-2', sun to part sun, med soil, good resistance to powdery mildew	ready
phlox carolina	thickleaf phlox 'Kim'	Gal	pinkish/purple blooms, summer, 1'-2', sun to part shade, avg to moist soil, good resistance to powdery mildew	sold out
phlox divaricata	wild blue phlox	Qt	pink/white/lavendar blooms Apr-May, 8”-12”, part shade, moist soil, attracts butterflies, fragrant	sold out
phlox divaricata	woodland phlox 'blue moon'	Qt	violet blue blooms Apr–May, 12”-18”, part shade, moist soil, attracts hummingbirds, pollinators	sold out
phlox divaricata	woodland phlox 'chattahoochee'	Qt	light violet blue blooms with magenta centers, Apr-May, 12-18", part shade, moist soils	sold out
phlox divaricata	woodland phlox 'may breeze'	Qt	light blue to white blooms Apr–May, 10”-12”, part shade, moist soil, attracts hummingbirds, pollinators	a few left
phlox glaberrima	Morris Berd' smooth phlox	Qt	bright pink flowers, late spring/early summer, 2-3', sun to part shade, moist to dry soil, excellent disease resistance, nice maroon foliage in fall, good rating in Mt Cuba and Chicago Botanic Garden Trials, similar to phlox paniculata but more compact, narrower foliage	sold out
phlox maculata	wild sweet william/meadow phlox	Qt	pink-violet blooms, late summer to fall, 2-3’, sun to part shade, moist soils, fragrant, spreads gradually, attracts butterflies, good powdery mildew resistance	sold out
phlox paniculata	garden phlox 'Jeana'	Qt	lavendar/pink fragrant blooms, June to late summer, 3'-5', avg to moist soil, good resistance to powdery mildew, butterfly magnet	plugs
phlox pan. 'Blue Paradise'	phlox 'Blue Paradise'	Qt	pale blue to deep violet blooms, summer, 2-3', sun/part shade, med to moist soil, attracts butterflies	ready
phlox stolonifera	Creep. Phlox 'Blue Ridge'	Qt	lavender-blue blooms, late-spring to early summer, 6-8”, med to moist (but well-drained) soil, part to full shade, attractive to butterflies/hummingbirds, drought tolerant once established, can gradually spread to form groundcover	sold out
phlox stolonifera	Creep. Phlox 'Home Fires'	Qt	Deep pink flowers starting in Apr, 6-10”, shade to part shade, moist well-drained soil, attracts butterflies/pollinators	sold out

phlox stolonifera	Creep. Phlox 'Sherwood Purple	Qt	Purplish-blue flowers starting in Apr, 6-10”, shade to part shade, moist well-drained soil, attracts butterflies/pollinators	sold out
phlox subulata	Moss phlox (various)	Qt	groundcover phlox with semi-evergreen foliage, spring, sun to part shade, well-drained soil, tolerates poor soils, several varieties available	sold out
phlox Wanda	Wanda Phlox	Gal	hot pink flowers, clean foliage, 2', sun to part shade, moist to med dry soils	sold out
physostegia virginiana	obedient plant	Qt	pink flowers spikes bloom late summer/fall, 3'-4', full sun, tolerates wet clay soil, but fine in average soil, can spread if happy	bareroot avail
physostegia virginiana	obedient plant 'miss manners'	Qt	white flower spikes bloom late summer/fall, 2'-2.5', full sun, medium soil, tolerates moist, less aggressive	sold out
podophyllum peltatum	Mayapple	Qt	white blooms, Apr-May, 1-1.5', part to full shade, med soil, edible fruit after flowering	dormant
polemonium reptans	Jacob's ladder	Qt	light blue flowers, late spring, 12”-18”, shade/part sun, average to moist soil, forms groundcover	ready soon
polygonatum bi. commutatum	great solomon's seal	Gal	greenish-white bell-shaped flowers, late spring, 2-4'+, part to full shade, med to moist soils	sold out
porteranthus (gillenia) stipulata	American ipecac	Qt	white flowers, late spring/early summer, 3', sun to part shade, med wet to med dry soils	ready soon
porteranthus (gillenia) trifoliatu	Bowman's root/Indian physic	Gal	White-pink blooms on red stems, late spring/early summer, 2'-3', shade to part sun, bronze-red fall foliage	a few left
prunella vulgaris	Magdalena' self heal	Qt	purple blooms, summer to fall, 6”, avg to moist soils, sun to part shade, attracts bees and butterflies	sold out
pycnanthemum flexuosum	Appalachian mountain mint	Gal	Silver-white blooms, late summer/fall, 2'-3', full to part sun, moist to dry soil, more clump forming that most mountain mints, nice fall foliage color, host plant for gray hairstreak, attracts pollinators	plugs
pycnanthemum incanum	Hoary mountain mint	Qt	clusters of lavender to white flowers, late summer, 3'-4', sun to part shade, average well-drained soil, aromatic foliage with silver tinge, very attractive to wide variety of pollinators	plugs
pycnanthemum muticum	Short toothed/clustered mountain mint	Qt	silver bracts with light pink blooms, late summer, 2'-3', full sun to full shade, moist to dry soil, aromatic foliage, nice in arrangements – attracts bees and butterflies	plugs soon
pycnanthemum pilosum	Hairy mountain mint	Qt	fuzzy white blooms, late summer/fall, 1-3’, sun to part shade, dry to medium soil, silvery-green foliage, attractive to numerous pollinators, deer/rabbit resistant	sold out
pycnanthemum tenuifolium	narrowleaf mountain mint	Qt	white blooms, mid-late summer, 2'-3', sun to part shade, dry to medium soil, fragrant, attracts pollinators	sold out

pycnanthemum virginianum	American mountain mint	Qt	white blooms, July-Sept, 2-3', full sun, wet to dry soil, aromatic foliage, attracts numerous pollinators	plugs
ratibita pinnata	gray headed coneflower	Qt	yellow blooms with prominent center cone, late summer, 2-5', full sun, moist to dry	sold out
rudbeckia fulgida v. deamii	Deam's coneflower	Qt	yellow blooms, 3', summer, full sun, average soil, attractive to pollinators, seed heads attractive to birds	sold out
rudbeckia hirta	black eyed susan	Qt, 2 Qt	yellow blooms, summer, 2'-3', sun to part shade, average soil, can be short-lived/bienniel, but reseeds	sold out
rudbeckia hirta	varieties	Qt	varieties with brown/maroon centers	sold out
rudbeckia laciniata	cutleaf coneflower	Qt	yellow blooms, Aug-Sept, 5'-8', full to part sun, average to moist soil, attracts butterflies and birds, nice cut flower, pretty with ironweeds	bareroot avail
rudbeckia maxima	great coneflower	Qt	yellow flowers with dark cones July-Sept, blue/green foliage, 6'-8', full sun, dry to medium soil	sold out
rudbeckia subtomentosa	sweet coneflower 'Henry Eilers'	Qt	yellow quilled flowers, Aug-Sept, 4-5', moist-average soil, drought tolerant when established	sold out
rudbeckia subtomentosa	sweet coneflower 'little Henry'	Qt	yellow quilled flowers, Jul-Sept, 3', moist-average soil, drought tolerant when established	a few left
rudbeckia triloba	Three lobed coneflower	Qt	yellow blooms, July-Sept, 3', sun, good for moist areas but tolerant of dry sites as well	sold out
rudbeckia triloba 'Blackjack Gold'	Three lobed coneflower 'Blackjack Gold'	Gal	yellow blooms with dark centers/stems, 3', sun, longer lived than the species, longer bloom time	sold out
rudbeckia tri. 'Little Charm'	Little Charm' three lobed coneflower	Gal	yellow blooms, 3', sun, long blooming variety	sold out
rudbeckia 'Viette's little suzy'	Viette's Little Suzy' black eyed susan	Qt	yellow flowers w/ dark centers, summer-fall, 15-18", sun/part shade, a more compact form of black-eyed susan	sold out
rudbeckia 'American Gold Rush'	American Gold Rush' black-eyed susan	Qt	yellow blooms, summer to fall, 18-24", full/part sun, compact form, good disease resistance	sold out
salvia azurea	Blue sage	Gal	sky blue blooms, late summer, 5', sun, med to dry soil, aromatic foliage, attractive to pollinators/butterflies, good native substitute for Russian sage	ready
salvia lyrata	Lyre-leaf sage - straight species	Qt	white to periwinkle blooms, 1-2', late spring/summer, medium soils, pollinators/hummingbirds	plugs
salvia lyrata	Purple knockout' Lyre-leaf sage	4”	maroon foliage, white/lavendar blooms, 1', sun to part shade, moist to dry	sold out
sanguinaria canadensis	Bloodroot	Qt	white flowers, yellow centers, early spring, moist, shade	dormant
sanguisorba officinalis	greater burnet	Gal	dark red to maroon-purple blooms, summer, 2-3', sun, med soil, deer resistant, unusual foliage, attracts songbirds/pollinators/butterflies, nice addition to cut arrangements	sold out

scrophularia marilandica	late figwort	Gal	small reddish-green blooms, late summer/fall, 6', sun to part sun, med to dry, attractive to hummingbirds/pollinators	sold out
scutellaria incana	hoary skullcap	Qt	Voilet-blue blooms, summer, 2'-4', full to part sun, avg to dry soil, tolerates clay soil, attracts butterflies	Appalachian Blues" available
scutellaria ovata rugosa	heart-leaved skullcap	Qt	purple blooms, summer, 1', part shade to full shade, avg to dry soils	ready soon
sedum ternatum	woodland stonecrop	Plug	Larinem Park', white blooms late spring/summer, 2”-6”, full to part shade, moist/average soil, good groundcover for shade	plugs
senecio aureus	golden ragwort (aka packera aurea)	Gal	yellow blooms Mar-May, 12”-15” tall, full sun to shade, dry to moist, early pollinator plant	A few quarts/plugs
silene caroliniana	wild pink 'short and sweet'	Qt	pink blooms May-Jun, 6”-8”, sun to part shade, med to dry soil, attracts hummingbirds/butterflies, native subst for dianthus	sold out
silene virginica	fire pink	Qt	scarlet red blooms spring, 12”-20”, part shade, moist good drainage, found on rocky wooded slopes in open woods	sold out
silphium mohrii	Mohr's rosinweed	Gal	pale yellow blooms, mid sum - fall, 2-5', sun to part shade, med to dry soil, does well in rocky sites, a slightly more compact and drought tolerant silphium	sold out
silphium perfoliatum	Cup plant	2Qt and Gal	Yellow daisy-like blooms, July-Oct, 6-8', sun, med to wet soils, large leaves form 'cups' that collect water for birds, frogs and other wildlife	sold out
Sisyrinchium ang. ‘Suwannee’	Suwannee' Blue Eyed Grass	Gal	sky blooms blooms, spring into summer, 8-10", moist to dry soils, sun to part shade, grass-like foliage, groundcover	plugs
Sisyrinchium ang. ‘Lucerne’	Lucerne' blue eyed grass	Qt	violet-blue flowers, spring into summer, 8-10", moist to dry soils, sun to part shade, grass-like foliage	sold out
Sisyrinchium 'Moody Blues'	Moody Blues' blue eyed grass	Qt	violet-blue flowers, spring to summer, 8-10", moist to avg, sun to part shade, grass-like foliage	sold out
smilacina racemosa	False Solomon's seal	Qt	ivory flower plumes, late spring, followed by red berries, 1-3', part to full shade, med to moist soils	a few left
solidago bicolor	Silverrod/white goldenrod	Gal	white to pale yellow blooms, late summer/fall, 1-3', sun to part shade, dry to moist	sold out
solidago caesia	Bluestem/wreath goldenrod	Gal	yellow blooms on arching blue-green stems, late summer/fall, full to part shade, dry to med soils, tolerant of rocky soils, clay, slopes	plugs
solidago drummondii	Cliff goldenrod	Qt	yellow blooms, fall, 1-3', sun to part shade, dry to medium soils, tolerant of rocky sites	ready
solidago erecta	Slender goldenrod	Qt	yellow blooms, late summer/fall, 1-4', sun to part shade, dry soils, *endangered in PA	a few left

solidago flexicaulis	Zigzag Broadleaf goldenrod	Qt	yellow blooms late summer/fall, 1-3', a woodland variety of goldenrod, best in dappled shade, attracts pollinators	plugs soon
solidago graminifolia	grass-leaved goldenrod	Qt	flat-topped clusters of golden-yellow flowers, fine textured foliage, late summer/fall, 3-4', sun to part shade, med to moist soil, attractive to butterflies/pollinators, a variety of birds eat the seeds, nice cut flower	a few plugs
solidago juncea	Early goldenrod	Qt	2-4' tall, 2-3' wide, yellow flower panicles on arching stems, blooms July-Aug, moist to dry soil, sun to part shade	sold out
solidago 'Little Lemon'	'Little Lemon' goldenrod	Qt	compact goldenrod, lemon-yellow blooms, 8"-14", good choice for fall containers	sold out
solidago odora	Sweet goldenrod	Qt	yellow blooms, late summer/fall, 2-4', sun to part shade, tolerant of dry soil, clump forminging (not as aggressive as other goldenrods), also called anise-scented goldenrod	sold out
solidago rigida	Stiff goldenrod	Qt	yellow blooms, gray/green foliage, late summer/fall, 2'-5', full sun, moist to dry	plugs
solidago rigida 'Golden Rockets'	Golden Rockets' stiff goldenrod	Qt	yellow blooms, fall, 2', sun, tolerant of poor dry soil	sold out
solidago rugosa	'Fireworks' goldenrod	Gal	yellow blooms, late summer/fall, 3'-4', full to part sun, avg soil, attracts late season pollinators, nice with asters	plugs
solidago sempervirens	seaside goldenrod	Gal	yellow blooms, late summer/fall, 3-5', sun, avg soil, tolerant of a range of conditions (dry, wet, salt, etc), nice semi-evergreen foliage	ready
solidago shortii	'Solar Cascade' goldenrod	Qt	yellow blooms, late summer/fall, 2'-3', full to part sun, average soil, drought tolerant once established, late season pollinator plant, not as aggressive as many other goldenrods	plugs
solidago speciosa	Showy goldenrod	2 Qt	2-3' tall and wide, pyramidal yellow/gold blooms, reddish stems, late summer to fall, moist to dry, sun to part shade	plugs
solidago sph. 'Golden Fleece'	Golden Fleece' goldenrod	Qt	Yellow blooms, late summer-fall, 1-1.5', full sun, dry to med soil, more compact and mounding habbit than most goldenrods	ready
solidago uliginosa	Bog goldenrod	Qt	Yellow blooms, fall, 4', sun to shade, wet to medium soils	ready
solidago ulmifolia	Elmleaf goldenrod	Gal	yellow blooms, late summer/fall, 3', med to dry soils, part to full shade	ready
spigelia marilandica	Indian pink	Qt	red w/ yellow blooms, 12"-18", summer, part sun/shade, moist soil	sold out
stokesia laevis	Stokes' aster	Gal	lilac-blue flowers, summer, 18", sun, med to moist but well-drained soils	sold out
stokesia 'Color Wheel'	Color Wheel' aster	Gal	white flowers changing to lavender then blue/purple, 12-18", sun, med to moist well-drained soils	sold out
stokesia laevis 'Divinity'	Divinity' Stokes' aster	Gal	white blooms with pale yellow centers, 1-1.5', sun, med to moist but well-drained soil, avoid wet winter sites	sold out

stokesia 'Peachies Pick'	Peachies Pick' stokes' aster	Qt	lilac-blue blooms, summer, 12", sun, med to moist well drained soils	sold out
stylophorum diphyllum	wood/celandine poppy	Qt	golden yellow blooms Apr – Jun, 12”-15”, shade, moist soil, attracts butterflies/pollinators	ready
thalictrum dasycarpum	tall/purple meadow rue	Qt	cream blooms on purple stems, late spring, 6', full to part sun, med to wet soil,	ready
thermopsis caroliniana	Carolina lupine	Gal	yellow blooms, June, 3'-4', full sun, avg soil	plugs
tiarella cordifolia	foamflower	Qt	White/light pink blooms, 12”-18”, full to part shade, moist to average soils, can spread to form groundcover in these conditions	sold out
tiarella cordifolia	Brandywine' foamflower	Qt	creamy white flowers, 12-18", full to part shade, moist to avg soils, leaves have dark veining	sold out
tiarella cordifolia	New Moon Motley' foamflower	Qt	white flowers, spring, 8-12”, part to full shade, med to moist soils, this variety has a mix of leaf shades and dark variegation on the leaves	a few plugs
tiarella wherryi	Wherry's foamflower	Gal	white blooms, spring, 10", part to full shade, moist soil	a few left
tiarella 'Running Tapesty'	Running Tapestry' foamflower	Gal	white blooms, spring, 12-15", part to full shade, med to moist soil, running groundcover, dissected heart shaped foliage	sold out
tradescantia 'Sweet Kate'	Sweet Kate' spiderwort	Gal	purple flowers, chartreuse foliage, late spring/summer, 18", best with afternoon shade to prevent scorching	sold out
trandescantia ohioensis	Ohio spiderwort	Qt	blue-violet blooms, late spring to summer, 2-4', part to full sun, moist to dry soils	plugs
trillium	trillium (varieties)	Qt	various varieties - grandiflora (white), nodding, red, yellow, prairie, beige	dormant
uvularia grandiflora	Bellwort	Qt	pale yellow blooms, mid spring, 1-2', part to full shade, med soil	sold out
verbena canadensis 'Homestead purple'	Homestead Purple' verbena	Qt	deep purple blooms, late spring and summer, spreading/trailing habit, 15", sun, dry to med soil, good for containers	sold out
